Korea and the World Economy aims to be a high quality journal of global standing. The Journal will provide a worldwide forum for the dissemination of policy-related research on the Korean economy within the context of the world economy. Although the Journal's primary focus will be the Korean economy, it will also explore regional and global issues relevant to the Korean economy.

▲ The former title of this journal (*The Journal of the Korean Economy*) was changed to *Korea and the World Economy* since Vol. 11, No. 2 (August 2010) to reflect the Journal's plans to publish more articles on regional and global issues which impinge upon the Korean economy.

▲ To encourage excellence in research published in *Korea and the World Economy*, the Association of Korean Economic Studies will annually award the US\$ 1,000 Prize to the author(s) of the best paper carried in the journal during the preceding year.

▲ *Korea and the World Economy* is a peer-refereed journal and is indexed in the *Journal of Economic Literature*.
